NOTE—Contn Sheet.

proposal may not be acceptable The notification of 1912 relates to the rules for the regulation of water supply and rule 21 of the said rules enables the Executive Engineer or his authorized agent to cut open any road for the purpose of laying new mains etc Any amendment to the rules in the said notification can only be such as relate to regulation of water supply But the present proposal is to lay down the procedure to be adopted for road cutting whether for laying filtered water mains, or underground sewers or electric cables It is thus obvious that a set of rules applicable to all those activities would be inappropriate in a set of rules intended solely for regulating the water supply

21) Moreover, it is also a matter for consideration whether, in view of the observations expressed by the Elec Dept and the PWD regarding the existing procedure, there is any urgent need for the issue of the proposed rules

39) These may be pointed out to the more appropriate wings of the Secretariat for necessary framing of rules [illegible] 20/12

31) Besides the difficulties made by the Chief Electrical Engineer the Executive Engineer Water Supply has also stated by the Chief Engineer has been overlooked in the draft rules

4137

Serial No

33) I also believe that action is being taken to issue fresh rules for regulating the supply of water and it may not therefore be desirable at present to amend the rules which are about to be superseded

V)

46) As already observed by me, there seems to be no urgent need, in view of the views expressed by the PWD and the Electric Dept regarding the existing procedure, for the issue of the proposed rules. In the next place, I do not think the proposed rules can be issued as the rules framed by Govt under Section 228 of the City Municipalities Act. But as the City Municipal Council is very anxious that the existing state of affairs requires some improvement, the purpose may perhaps be served by Govt issuing suitable executive instructions to the Electric Dept & the PWD Department

The draft G.O. may issue. My personal opinion is however that a much more drastic remedy of the whole problem is desirable in order to avoid what has become an intolerable nuisance in most large cities. It should be obligatory on Elec & Tele departments to so lay their connections that the roads have not to be broken up every time a repair or alteration is necessary

Subject - Cutting of roads for laying pipe lines and cables etc ,

---

I have the honour to state that the roads and footpaths, which have been formed and maintained at a heavy cost by this Municipality, have been frequently cut open for laying pipe lines or cables, by the Water Supply, Sanitary and the Electrical Departments and it has been found that the reformation of the cut up portions is very often incomplete and unsatisfactory In such cases, good tarred roads have been damaged considerably The electrical department has refused to pay for the restoration of the untarred roads and footpaths, cut by them

The procedure in vogue in C & I Station was considered by the Municipal Council at their meeting held on 30-11-37 and they have approved that the rates levied in the C & I Station, for road cutting charges, may be adopted in this municipality also A copy of the resolution is herein enclosed

The Executive Engineer, Water Supply Division, is empowered to cut open roads for laying water mains etc , as per Rule 21 of the Revised Rules for the regulation of water supply, vide, Government notification No 772-527 dated 4th June 3 The enclosed draft rules now fr on the basis of the rules in force in Station, may be kindly

Municipal Commissioner 28/2

DRAFT RULES

1 Only Licensed Plumbers and Electric Contractors and Government Departments of Water Supply, Electric, and Sanitary, are permitted to cut any Municipal Road or Lane, in any part of the City

2 All Licensed Plumbers and Electric Contractors will have to pay a deposit of Rs 50/- towards road cutting charges

3 In the case of the Government Departments, they will have to deposit the money as per calculations based on the rates in the schedule noted below, in advance, before they are permittted to cut the road

4 Three days clear notice should be given regarding the date when the road will be cut

5 In the case of Licensed Plumbers, bills for road cutting done are sent to them periodically to be paid within 7 days from date of Memo after which date no more work will be permitted to be done by the Plumbers till the amounts are paid in full

6 Plumbers and Departments should make their own arrangements for barricading, for ensuring safety to users of road while the work is in progress They should leave the work after filling the cut properly so as to have complete safety to users of the surface cut

7 Three days' clear notice should also be given regarding the date on which the work is likely to close and work finished as per Article 6 Supra, so as to enable the Municipality to take up re-conditioning immediately the work is closed and left finished as per Article 6

8 The bills are prepared on the quantity of work done according to the rates in vogue for road cutting charges For reconditioning the surface, the area will be extra 2' all round the cut, to have grip with the old surface

SIR

Subject - Draft rules for cutting of roads for laying pipe lines, etc

—

With reference to your letter No L 10440/M1 74-37-8 dated 29th June 1938 calling for revised rules in the light of the opinions furnished by the Chief Engineer in Mysore and Secretary to Government Electrical Department, I have the honor to forward herewith a copy of the amended draft rules as approved by the Municipal Council together with a copy of their resolution in this behalf Neither department seems to desire any material change in the existing procedure which involves serious inconvenience to the Municipality The suggested rules are based on those obtaining in the C & M Station Municipality, and no good reasons have been given for their non-adoption here also I request that in these circumstances sanction of Government may be kindly obtained to the draft rules approved by the Council

The enclosures received with your letter are returned herewith

I have the honour to be,
Sir,
Your most obedient servant,

Municipal Commissioner

Forwarded with compliments,

Honorary President 17/10

SIR

With reference to your letter No L 3672-M1 74-37-104 dated 5/7th November 1938 calling for a copy of the rules in force in the Civil and Military Station Municipality, re cutting of roads for laying pipe lines, etc , I have the honour to state that on a reference made to the President, Civil and Military Station, Bangalore he has intimated that there are no bye-laws or rules framed for regulating the work a copy of the report received regarding the procedure followed by the Engineering Department there, in regard to cutting of roads for laying electric cables or pipe lines is sent herewith

I have the honour to be,
Sir
Your most obedient servant,

Forwarded with compliments,

Honorary President

S Narayana Rao
Municipal Commissioner

Kas 10/11

Report -

A special Gang of coolies is maintained under our control for all road cutting purposes whether for laying filtered water lines, underground sewers or electric cables These coolies are sent to cut the road and re-make the same, on a requisition from the party who require road cuttings for laying pipe lines or cables across the road No outside Agencies are permitted to cut the road in any part of the station

Three days' clear notice should be given regarding the date on which road cutting is required to be done

All Licensed Plumbers will have to pay a deposit of Rs 100/- towards road cutting charges

Other parties are to pay a deposit of Rs 21/- for each cutting required, along with their requisition for the same This deposit is returned to them after deducting the road cutting charges when the work is completed

In the case of Licensed Plumbers, bills for road cutting done are sent to them periodically, to be paid within 7 days from the date of memo, after which date, no more works are permitted to be done by the Plumbers till the amounts due are paid in full

The bills are prepared on the quantities of work done according to the rates in vogue for road cutting works

The following are the details of rates -

1	Earth work excavation filling in and consolidation etc,	at Rs	14-0-0% Cft
2	Removing and relaying unsize store paving	at Rs	0-0-6 per sft
3	Boulder soling	"	8-0-0 % CFT
4	Quarry metalling	"	7-0-0% "
5	Consolidation	"	0-15-0 % sft
6	Spramex dressing	"	0-5- 0 sq yd

Add to above

7 Supervision charges 12½ %

8 Municipal fee Lumpsum 1-0-0

In cases, where the party deliberately delays the work for want of proper materials, etc , and thereby necessitates the use of additional coolies for repairing the road cutting (than what is normally required for a work of the kind) then the charges for extra coolies will be recovered from the party in addition to the usual bill

No special consideration is being shown to the Government Electrical Department or to any other bodies in this respect

Subject - Draft rules laying down the procedure to be adopted for road cutting whether for laying filtered water lines or underground sewers or electric cables in the Bangalore City Municipality

---

With reference to the correspondence ending with your letter No A 3 797/36-37, dated 10/11th November 1938 on the above subject, I am directed to observe as follows -

1) The proposal of the Municipality ~~is~~ to incorporate the proposed draft rules in Notification No 772-2375 dated 29th June 1912 is not acceptable The Notification of 1912 relates to the rules for the regulation of water supply and rule 21 therein enables the Executive Engineer or his authorised agent to cut ~~in~~ open any road for the purpose of laying new mains etc , Any amendment to the rules in the said Notifications can only relate to the regulation of water supply and not to the subject matter of the proposal now made A set of rules applicable to all those activities set-forth in the draft rules now sent up would be inappropriate in a set of rules intended solely for regulating the water supply

2) I am to enquire also under what section of the City Municipalities Act, the Municipal Council proposes to frame the

draft rules under reference and whether in view of the opinion expressed by the Electrical Department and the Public Works Department regarding the existing procedure there is any urgent need for the issue of the proposed rules

The records accompany for reference and retransmission, if necessary with your reply early

CITY MUNICIPALITY

Dated Bangalore 23-12- 1938

Dear Mr Krishna Rao,

In inviting your kind reference to this Office letter of even No dated 17-10-1938, submitting modified rules for cutting up roads, for laying pipe lines etc , I enclose herein a copy of letter No B S 1223 dated 9-11-38 of the Executive Engineer, Water Supply Division, wherein they have adjusted a sum of Rs 434/- being the road cutting charge payable to the municipality, as a set off against certain item of works executed by them on behalf of the Municipality on the ground that funds had not been placed at their disposal etc , without obtaining the previous approval of this office The work of reconditioning the road leading to ' Kumara Park ' has been consequently held up for want of funds, This is only an instance of its kind and it is very necessary to insist upon deposits in advance from persons cutting municipal roads

I request the favour of your obtaining early sanction of Government to the draft rules submitted in this behalf

Yours Sincerely,

P H Krishna Rao, Esq , M A ,
Secretary to Government, L S G
Department, Bangalore

SIR

With reference to your letter No L 5301/Rl 74-37-113 dated 28th December 1938 returning the draft rules for cutting up of roads as not acceptable and enquiring whether there is any urgent need for the draft rules, etc , I have the honour to state that the rules -- are urgently called for, as even the newly repaired roads are being ribbed open without little or no notice to the Municipality and -- without funds being placed at the disposal of Engineering Department for reforming the roads The draft rules submitted for sanction are not bye-laws but only rules for regulating the use of Municipal roads which are Municipal property, primarily by the Water Supply, Sanitary and other departments

Kind reference is invited in this connection to this Office letter of even No dated 23rd December 1938, and to state that the Water Supply Department have been adjusting the amounts due to this Office without intimation (payable to the Municipality ~~money~~ on -- account of reforming the cut roads) on the ground that funds had not been placed at their disposal for certain works executed by them on behalf of the Municipality I enclose herein, for reference one -- such instance (copy of the Executive Engineer's letter No B 3 1893 dated 2nd February 1939) of the Water Supply Department, which -- reveals the situation

P.T.O

Under the circumstances I request that Government may be kindly moved to accord sanction to the proposed rules

The enclosures received with your letter under advertance are retransmitted herewith

Letter No 20984 dated 10th June 1938 from the Chief Electrical Engineer to the Government of Mysore, Bangalore, to the Secretary Government, Electrical Department, Bangalore

---

Draft Rules framed by the Bangalore City Municipal Council

With reference to your letter No 1651 of the 28th March 1938, enclosing a copy of letter No A S 797 dated the 26th February 1938 (with its enclosures) received from the Municipal Commissioner --- Bangalore, I have the honour to observe as follows -

The Electrical Department has not refused to pay for repairs to roads cut up for laying cables, but has contended that the ---- untarred roads and foot-paths could be suitably consolidated by the Departmental workmen obviating the necessity for any further attention by the Municipality As for the tarred portions of the roads resurfacing the cut portions have always been paid for, since the work required special tools and labour

The draft rules as framed require to be amended as follows

Rule 3 requires Deposit of money by the Department for any work to be done, which is not in conformity with the procedure usually --- of observed The rule may be amended so as to empower the Municipality on to carry out the works on the strength of estimates accepted by the hs Departments concerned and to bill the Departments the actual costs after completion

Rules 4 and 7 require three clear days Notice before and after ail cutting up the roads As the works of this Department occur at very ater short notices it would not be possible to enforce even a day's notice ed without inconvenience and even danger to the public Therefore these y rules should be so amended as to require notice to be given as early by as possible

Rule No. 6 requires that the cuts should be filled up and h to the Municipality to do the reconditioning No rule has been

been framed to indicate the depth of reconditioning for each class of road or footpath This may be indicated as otherwise there is the danger of the cables being injured if the cuts were re-opened in the process of restoration

As for the rates provided for the various items of work, no comment is necessary, as only rates approved by the P W D are ---- accepted in the Electrical Department

---

" Copy "

S Venkatarama 11.6.38
Assistant Secretary to Government,
Electrical Department

Note on the draft rules framed by the Bangalore City Municipal Council, regarding the procedur to be followed before cutting Municipal Roads for laying and repairing pipe lines

---

Rule (1) & (2) May be adopted

Item (2) may be taken to mean the work undertaken by the plumbers for giving connection to private houses

Rule (3) At present the charges for reconditioning the disturbed portions of the roads, are being provided for in the estimates for the respective works and they are being paid to the Municipality either by cash or by adjustments This procedure is being followed only when the work is completed and the portion of the reconditioned Road is actually measured No difficulty is being experienced either in respect of measurement or payment I am not therefore in our of the suggestion of the Municipality requiring Government Departments to deposit money in advance particularly in view of the complications that may arise in keeping open separate deposit account, watching adjustments, enforcing recoveries, and the consequent correspondence leading to the above transactions The work of the Division is sufficientl heavy already and the staff is adequate to cope with the existing work The additional work as per the suggestion of the Municipality will not in any way improve matters but on the other hand, the transactions will lead to complications

In this connection, it has to be pointed out that it is very necessary to empower the Water Supply Department to cut open the roads for purposes connected with the repai or renewels or alterations oradditions to the system of water supply of Bangalore, in the same manner as has been granted in G O No 5275 of 29th June 1912 There is no necessity for any permission being obtained from the Municipality by the Water Supply Department before they can start any of their works This Department will ordinarily comply with th

tioned in this No Rule 4 But the

Water Supply Department should be given the existing facilities to operate on their water supply system or adding to them or repairing them without having to wait for permission from the Municipality in every case

Rule (4) This may be adopted with the modification that except under exceptional circumsatnces such as heavy leakages, emergent repairs etc three days notice should be given regarding the date when the road will be cut

Rule (5) This procedure may be made applicable only in the case of a licensed plumber undertaking to instal a private connection As regards the work executed by the licensed plumbers on behalf of the Department the procedure in vogue as per para 3 supra may remain unaltered

Rule (6) This rule may be accepted in view of this procedure having been followed

Rule (7) Such notice can be given for works extending over a period of more than three days In cases of petty repairs of leakage etc , which could be completed in the course of few hours, intimating of completion will be given soon after the work is over

Rule (8) May be accepted, but in view of the fact that whenever the old road is cut open, the tarred surface material is given back separately for use, due deduction has to be made for such materials, as it is possible to recondition the road at a much cheaper rate by using this material The supervision charges are seen to be superfluous, in as much as the Government do not levy these for works executed by them for Municipality

Sd) V Ganesh Iyer,
Executive Engineer,
Water Supply Division

His Highness the Maharaja of Mysore,
Law Department
Bangalore

SIR

In continuation of my letter No A3- 727/36-37 dated 20-4-1939 regarding Road Cuttings, I have the honour to state that the roads and footpaths which have been formed and maintained at a heavy cost have been cut several times over in one year by the Water Supply, Electric -and Sanitary Departments invariably without previous intimation to the Municipality The result is a series of bumps, bad cuts and pitted roads The unfortunate part of it is that there is no coordination and prearranged programme between the departments and the Municipality, with the result that roads cut by one department and repaired at great cost by the Municipality are subsequently spoiled by another Department The Departments do not seem to take a broader view of the matter and the Municipality is very often blamed by the public for the state of roads To cite recent instances, the old Taluk cutchery road which was repaired at great cost after this was cut by the Sanitary Department had to be redone again in 3 months because the Water Supply - Department laid the main line in the same road afterwards similarly Nagarthpet road, Old Kasai Road, Avenue Road, Chikpet, Gundopanth - street have been reformed twice or thrice at very short intervals

2 On a reference made to the C & M Station Municipality, they supplied the set of rules that govern such cuts by other departments and it was felt that these rules might with advantage be in force in this Municipality also These were placed before the Council who -

who approved of the same in their meeting held on 30-11-1938

3 This resolution was forwarded to Government for approval which is still awaited The Municipality is the owner of roads and it does not appear to be unreasonable to expect intimation and deposit in advance from those who cut it up just as they impose conditions on the Municipality when they undertake works for the Municipality The departments are now going on cutting up the roads much to the inconvenience of traffic and in the absence of timely information there has been some avoidable expenditu e of money and some times very serious inconvenience to the Municipality on the eve of important occasions

4 It seems very necessary that this state of affairs should be stopped if the roads are to be maintained in an efficient condition and it is therefore requested that sanction of Government may be kindly obtained to these rules and to the Government Departments sending annual programmes at the commencement of the year so as to enable the Municipality to arrange its programme of maintenance and reformation of roads

I have the honour to be,

Sir,

Your most obedient servant,

Forwarded with compliments

DRAFT

Proceedings of the Government of the Maharaja of Mysore

Read -

Correspondence ending with letter No A3 797/36-37 dated the 27th June 1939 from the Municipal Commissioner Bangalore City submitting for approval a set of draft rules relating to the cutting up of roads in the City Municipal limits

---

ORDER NO L3815-9/Mel74-37-126

Dated Bangalore the 10th Sept 1939

The Municipal Commissioner Bangalore City has been repeatedly bringing to the notice of Government that the roads in the City which are repaired and maintained at a heavy cost are cut open often several times in a year - by the water supply Electrical and Sanitary Departments-in connection with the laying of filtered water line Electric cables and underground sewers respectively without any previous intimation and that in same cases even good tarred roads are being damaged considerably without funds being placed at the disposal of the Municipal Engineering Department for

reforming covering the roads The ref rmation of the cut roads when done by the departments is said to be incomplete and unsatisfactor; It is reported that the Electrical Department has even refused to pay for the restoration of the untarred roads and footpaths cut open by them

2 With a view to make good the damage thus done to the roads and the incurring of unnecessary expenditure by the municipal council in repairing such roads the Municipal Commissioner forwarded a set of rules for the approval of Government in this behalf These rules were referred to the Chief Engineer and the Secretary to Government Electrical Department for their opinions which were again sent to the Municipal Commissioner for consideration and incorporate in the proposed rules The Municipal Commissioner has finally with the approval of the municipal Council forwarded for sanction of Government under Sec 58 (1) of the Mysore City Municipalities Act 1933 read with Section 228 (1) thereof a set of revised rules on the lines of these obtaining in the C & M Station Bangalore

(Files 9 10 of correspondence)

3 Government observe that there is considerable force in the representation made by the Municipal Commissioner on the

on the subject as the municipal council has to maintain the roads in an efficient condition not only with a view to avoid recurring expenditure but also serious inconvenience to traffic It is not also unreasonable for the municipal council to expect previous intimation and deposit in advance from the departments concerned ~~as a matter of reciprocity~~

4 Government however consider that no formal rules need be framed in the matter but that it would be sufficient to issue instructions for the guidance of the departments concerned They are accordingly pleased to approve the set of instructions appended to this order which will be supplementary to the rules issued for regulating the water supply in Bangalore City Government trust that these instructions will ensure the ~~co-operation and~~ co-ordination of the work of the several departments of Government with the City Municipality so as to enable the latter to keep the roads in the City municipal limits in an efficient ~~and standard~~ condition

Questions if any outstanding between the municipal council and the said departments ~~in their behalf~~ may also be disposed of on the basis of these instructions

O R D E R No L 3815-7/mc 74-37-12-6

Dated, Bangalore, the 10th October 1939

The Municipal Commissioner Bangalore City, has been repeatedly bringing to the notice of Government that the roads in the City which are repaired and maintained at a heavy cost are cut open often several times in a year - by the water supply Electrical and Sanitary Departments- in connection with the laying of filtered water lines, Electric cables and underground sewers respectively without any previous intimation and that in some cases, even good tarred roads are being damaged considerably without funds being placed at the disposal of the Municipal Engineering Department for reforming the roads The reformation of the cut roads when done by the departments is said to be incomplete and unsatisfactory It is reported that the Electrical Department has even refused to pay for restoration of the untarred roads and foot paths cut open by them

With a view to make good the damage thus done to the roads and the incurring of unnecessary expenditure by the Municipal Council in repairing such roads, the Municipal Commissioner forwarded a set of rules for the approval of Government in this behalf These rules were referred to the Chief Engineer and the Secretary to Government, Electrical Department for their opinions, which were again sent to the Municipal Commissioner for consideration and incorporation in the proposed rules The Municipal Commissioner has finally, with the approval of the Municipal Council, forwarded for sanction of Government under section 80 (1) of the Mysore City Municipalities Act 1933 read with section 428 (1) thereof a set of revised rules lines of those obtaining in the - & % Station Bangalore

3. Government observe that there is considerable force in the representation made by the Municipal Commissioner on the subject, as the municipal council has to maintain the roads in an efficient condition not only with a view to avoid recurring expenditure but also serious inconvenience to traffic. It is not also unreasonable for the municipal council to expect previous intimation and deposit in advance from the departments concerned

4. Government, however, consider that no formal rules need be framed in the matter but that it would be sufficient to issue instructions for the guidance of the departments concerned. They are accordingly pleased to approve the set of instructions appended to this order which will be supplementary to the rules issued for regulating the water supply in Bangalore City. Government trust that these instructions will ensure the co-ordination of the work of the several departments of Government with the City Municipality so as to enable the latter to keep the roads in the City Municipal limits in an efficient condition.

Questions, if any, outstanding between the municipal council and the said departments may also be disposed of on the basis of these instructions.
